## Summary

5+ Leading Frontend Development with experience applying deep technical knowledge and creative design sense to amplify online traffic. Combines sound technical frameworks with appealing media assets to generate front end solutions focused on expanding user bases. Practiced at creating innovative online experiences to generate profits and grow average revenue per visit. Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

## Experience

### Frontend Engineer

BizEdge

Jan 2023 - Present (1 year)

- Built cross-browser compatible websites utilizing progressive enhancement techniques.
- Leveraged mastery of React.js, CSS, and JavaScript to build top-quality code for diverse projects.
- Optimized front-end performance by implementing caching techniques and minification of scripts.
- Integrated third-party APIs into existing applications for enhanced functionality.

Developed secure and reliable web-based solutions to meet customer requirements.

### Lead, React Developer

MyServiceAgent (MSA)

Oct 2021 - Present (2 years 3 months)

- Lead the Frontend team to build customer engagement platform and gifting platform
- Built reusable UI components that can be used across multiple projects.
- Created automated tests using Jest, Enzyme and Jasmine testing frameworks to ensure bug free codebase.
- Optimized performance of React applications by implementing code splitting and virtual DOM techniques.
- Integrated external APIs into the application to fetch data from remote servers.
- Provided technical guidance for junior developers in the team regarding best practices for developing React applications.
- Integrated third-party libraries into our applications for added functionalities .
- Optimized code for better performance, scalability, reliability, security and maintainability.
- Conducted research on new technologies relevant to the organization's objectives for future implementations.
- Drafted and maintained software documentation.

### Frontend Engineer

EXX Network

Jan 2023 - Present (1 year)

- Assisted with the design of various UI elements used in web applications.

- Performed Responsive Web Design practices to optimize sites for different screen sizes and devices.
- Worked closely with designers to ensure pixel perfect implementations of designs.
- Integrated Blockchain communication into front-end interfaces using web3.js and Ethers.js
- Integrated third-party libraries and APIs into existing applications for improved functionality.
- Deployed applications onto staging servers for QA testing before going live production environments.

## Frontend Engineer

Bufoxx

Aug 2021 - Jul 2023 (2 years)

- Convert design to code using next.js
- Integrate real-time currency converter
- Built merchant platform that allows businesses to manage and receive money from their customers

## Frontend Engineer

Treepz

Feb 2020 - Dec 2022 (2 years 11 months)

- Utilized version control systems such as Git to manage source code changes.
- Maintained code quality by following best practices while writing clean codes.
- Created interactive user interfaces with React.js, Angular.js, Next.js and TailwindCSS.
- Collaborated with back-end developers to ensure a seamless integration of the front-end with server side logic.
- Implemented responsive design principles to enable optimal viewing experiences across different devices.
- Integrated third-party APIs into existing applications for enhanced functionality.
- Developed custom websites to meet individual client needs.
- Collaborated with designers to create user friendly interfaces for web apps.
- Identified areas of improvement in existing web applications and provided solutions.
- Built cross-browser compatible websites utilizing progressive enhancement techniques.

## Frontend Developer

Haul247 (Google BFF'AFRICA 22)

Nov 2021 - Aug 2022 (10 months)

- Work closely with UI&UX designer to create 2.0 of the overall apps
- Build back-office dashboard management for managing shipments, trips approval and assignments to truck drivers, managing payment and invoices, managing clients overall activities, managing truck owners partners, drivers and admin access control.
